
CELESTIA

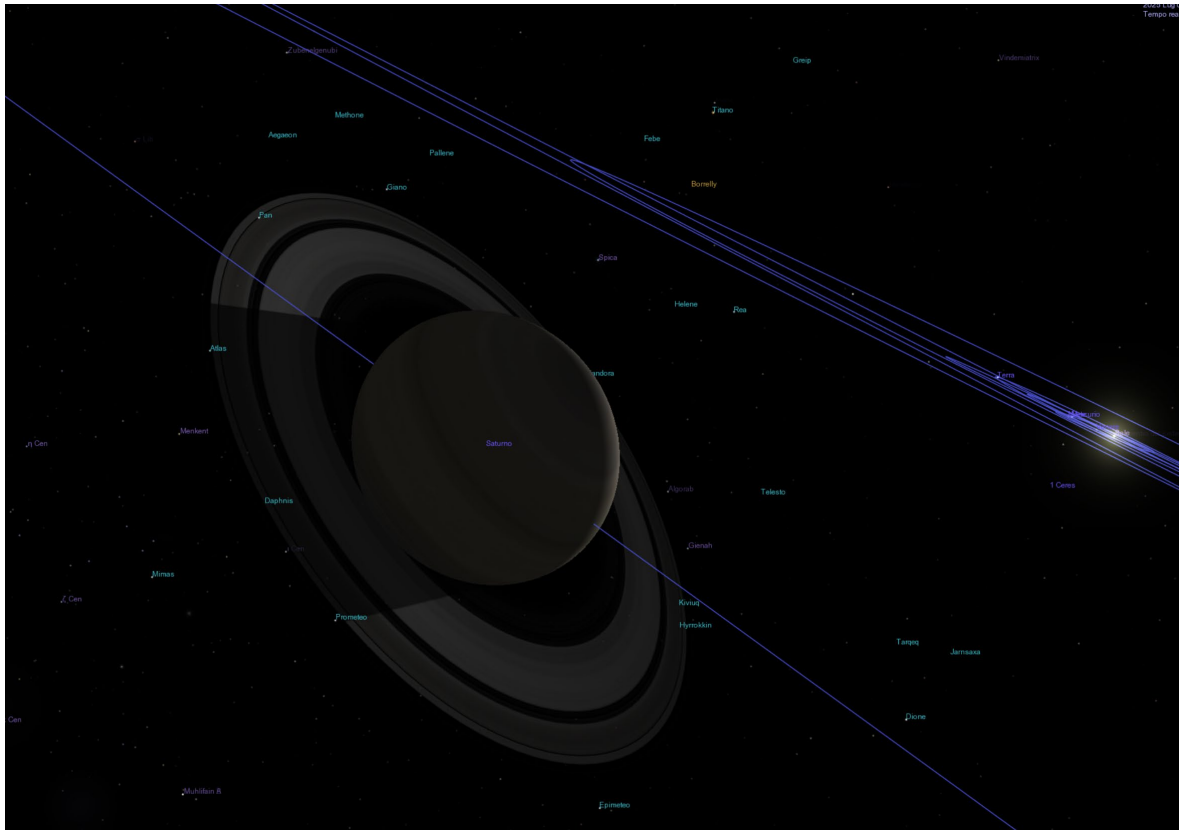

Celestia

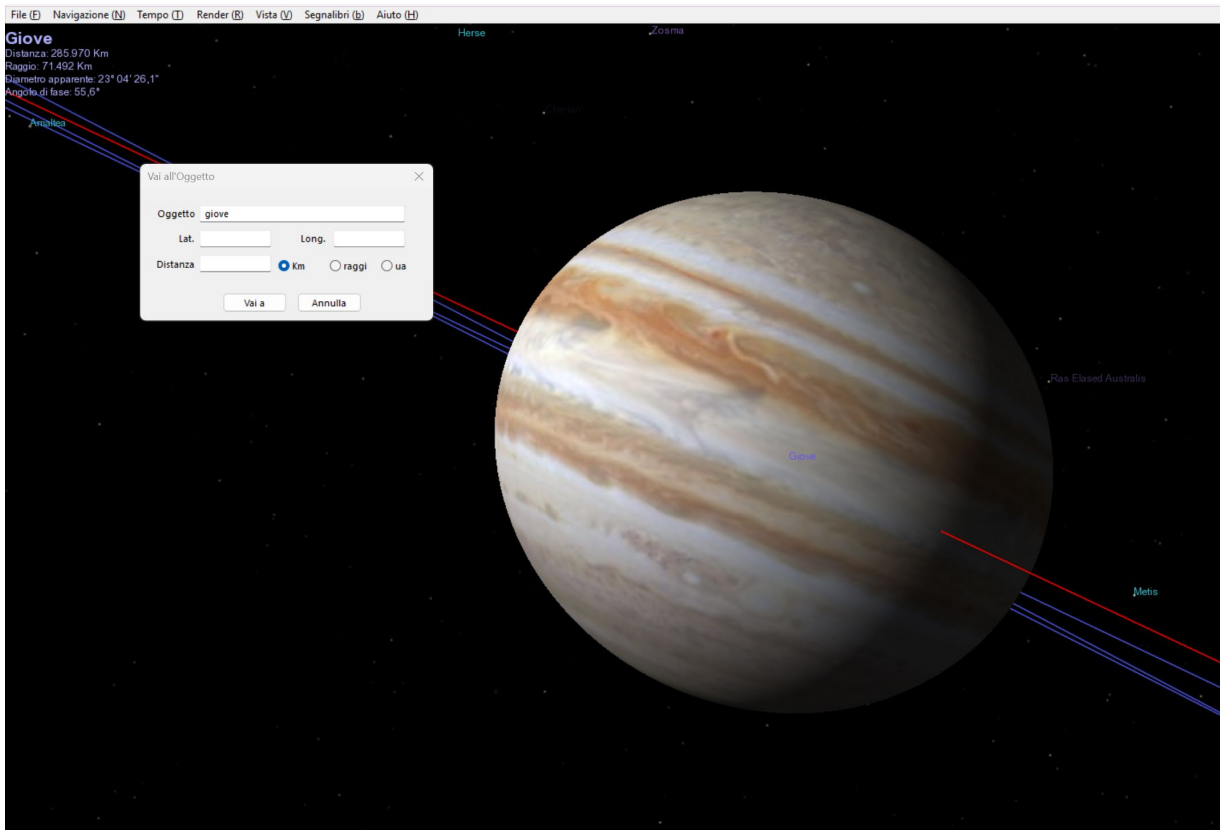

Software free per lo studio dell’astronomia.
Scaricabile all’indirizzo https://celestiaproject.space/

Celestia

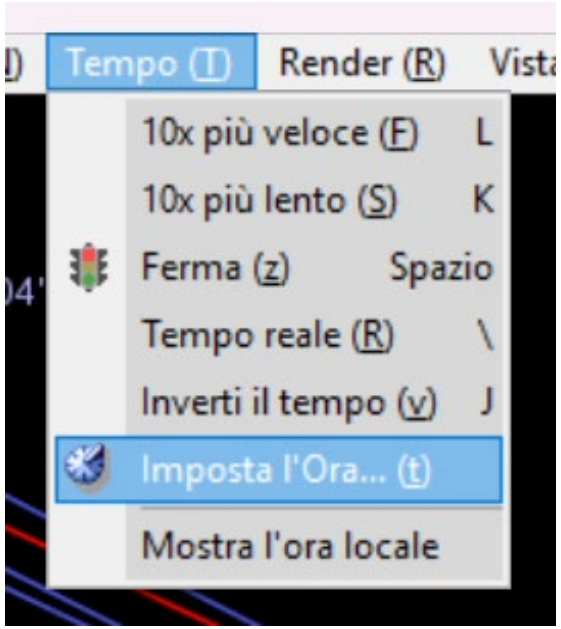

Permette di spostarsi da un corpo celeste all’altro modificando così il punto di riferimento della visuale

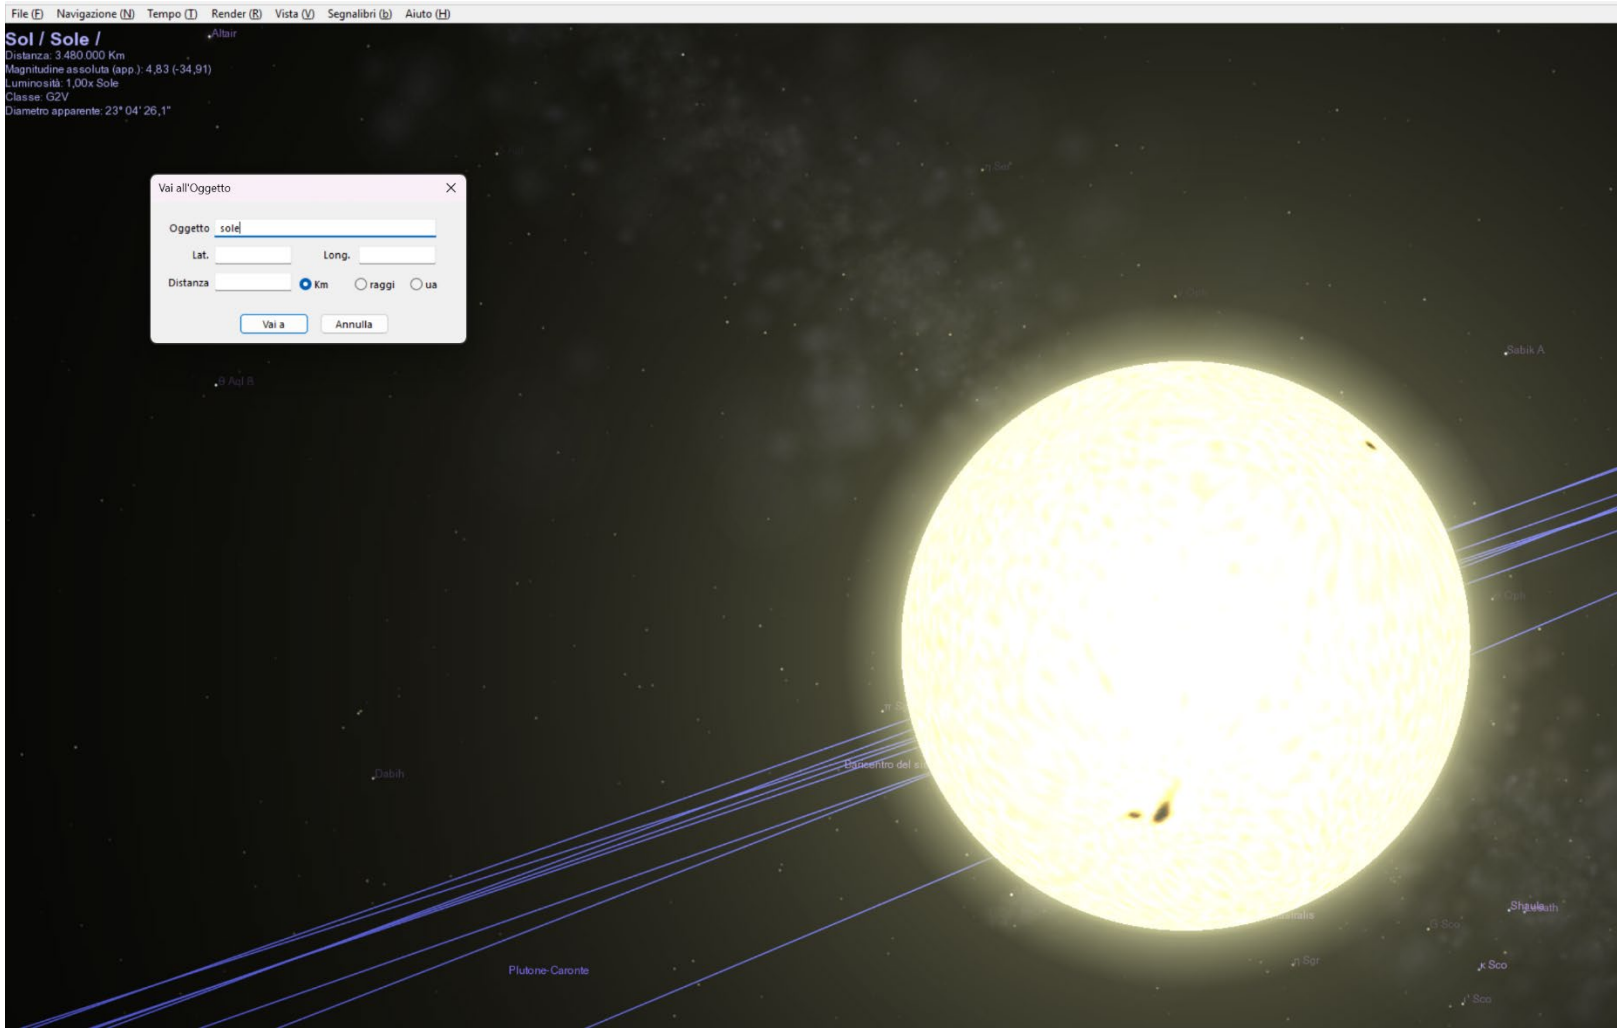

Celestia

Lo scorrere del tempo può essere variato e settato a piacimento

Celestia

Nelle opzioni di visualizzazione si possono settare diversi parametri da render visibili
