
Lucidchart

Lucidchart

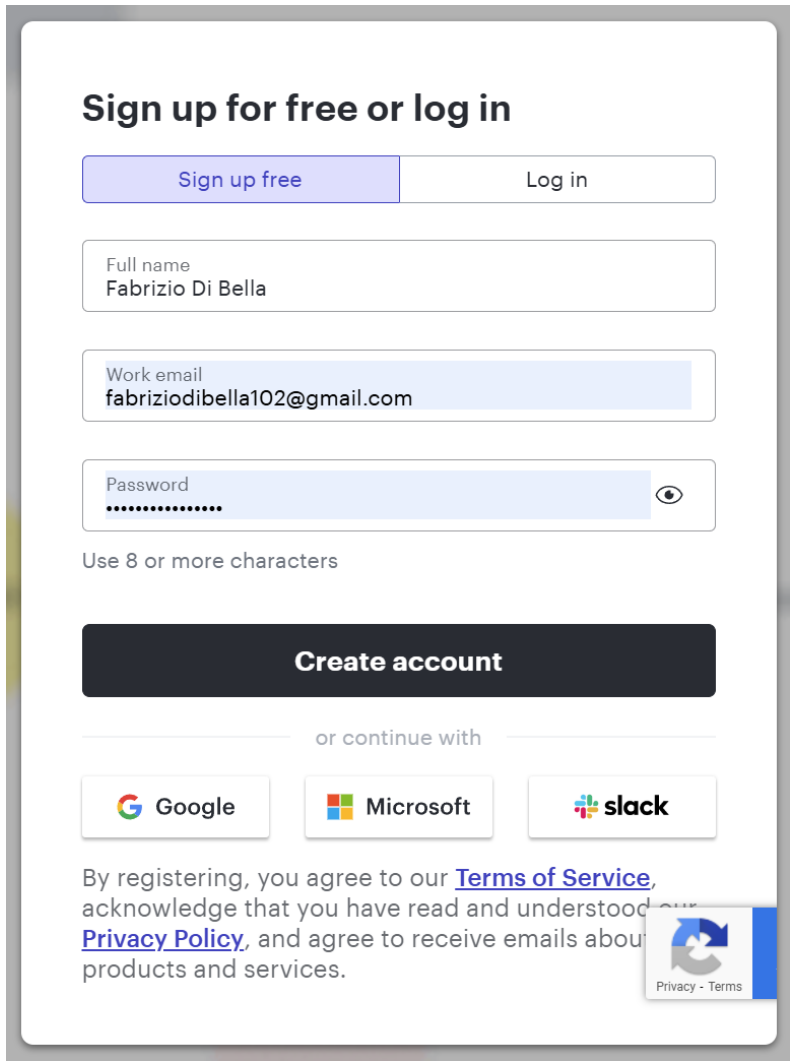

Software freemium per la creazione di mappe, consente di creare fino a 3 Lucidchart (diagrammi) e 3 Lucidspark (mappe) con al massimo 60 items all'interno

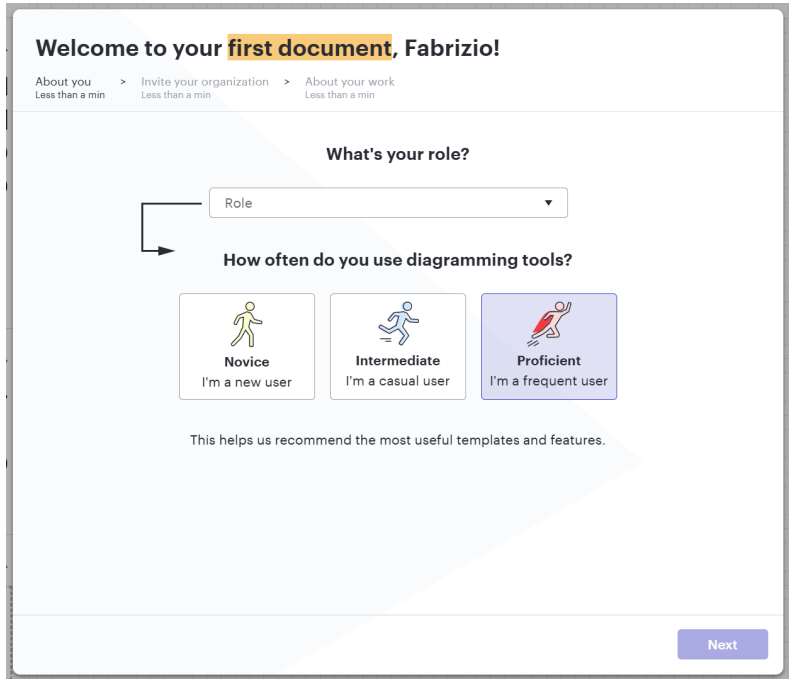

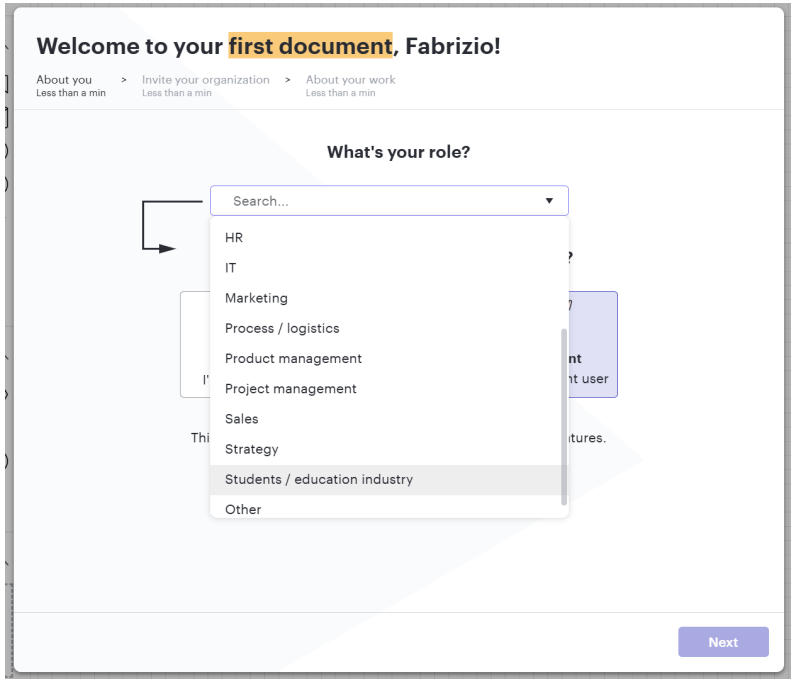

In realtà si possono creare ancor più lavori ma rimarranno modificabili solo gli ultimi 3 mentre i più vecchi saranno in modalità di sola visualizzazione

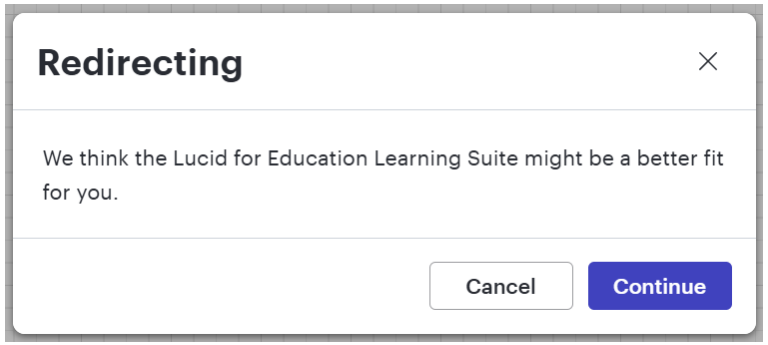

Lucidchart

Procedere nelle registrazione al sito: https://www.lucidchart.com/pages/? E cliccare sul pulsante «Iscriviti gratis»

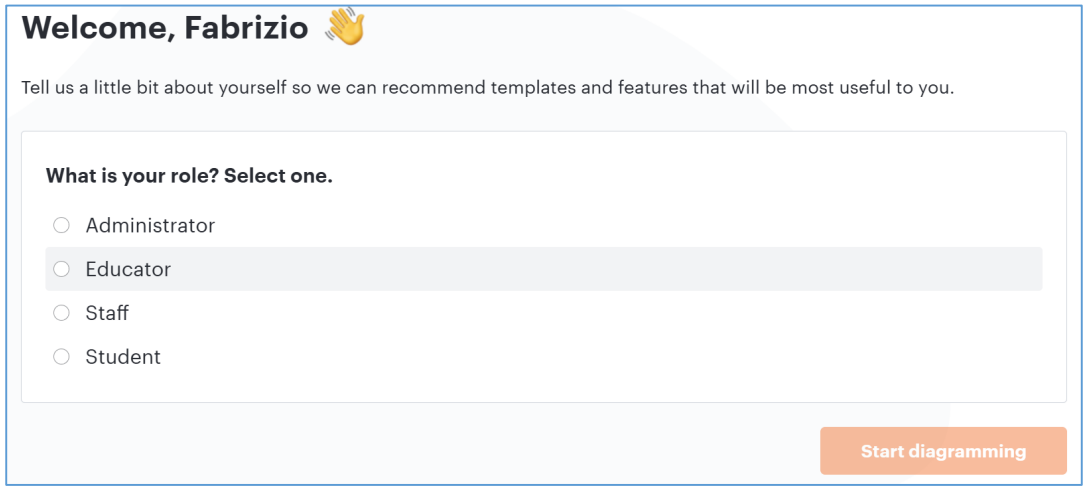

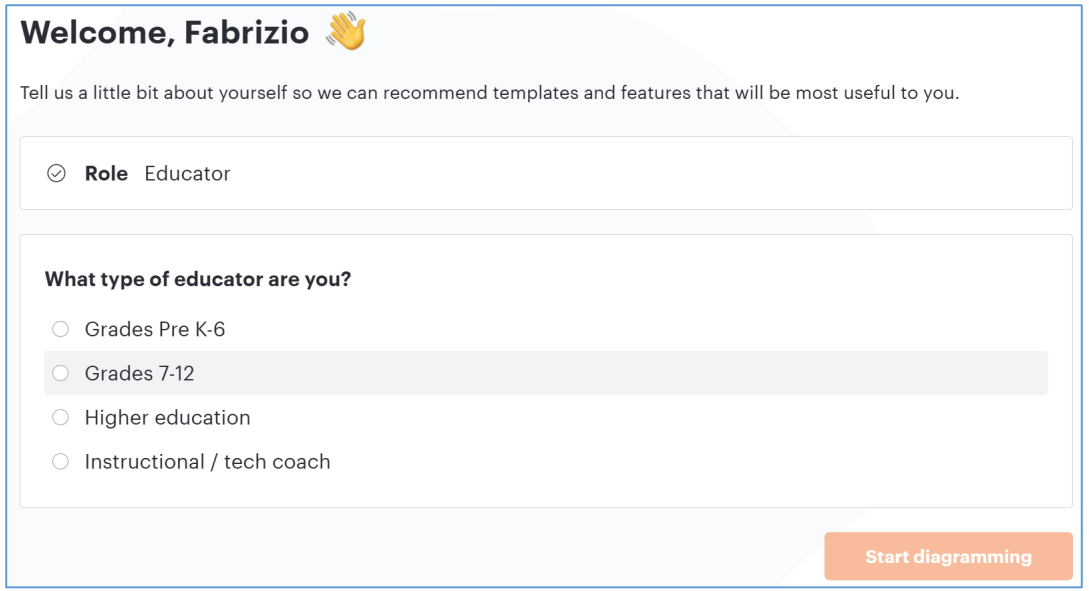

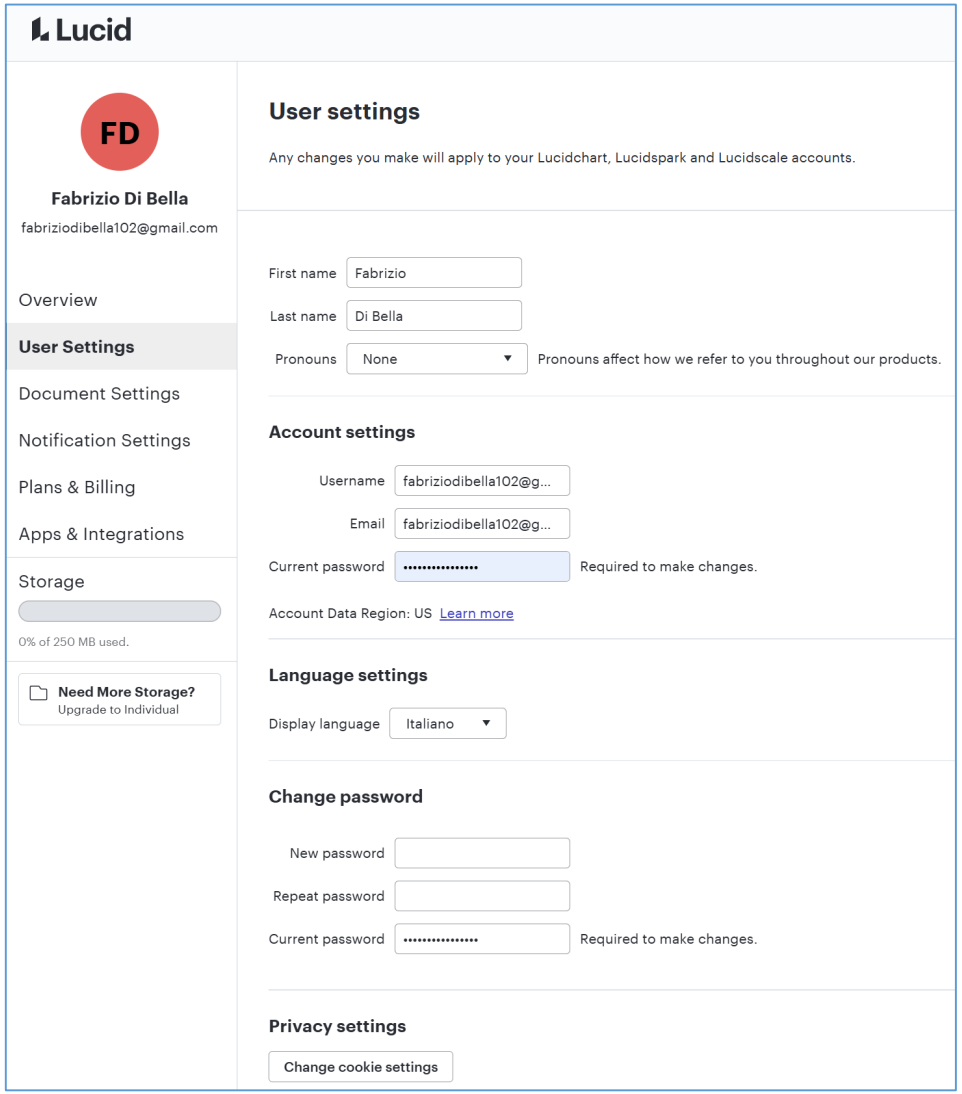

Lucidchart

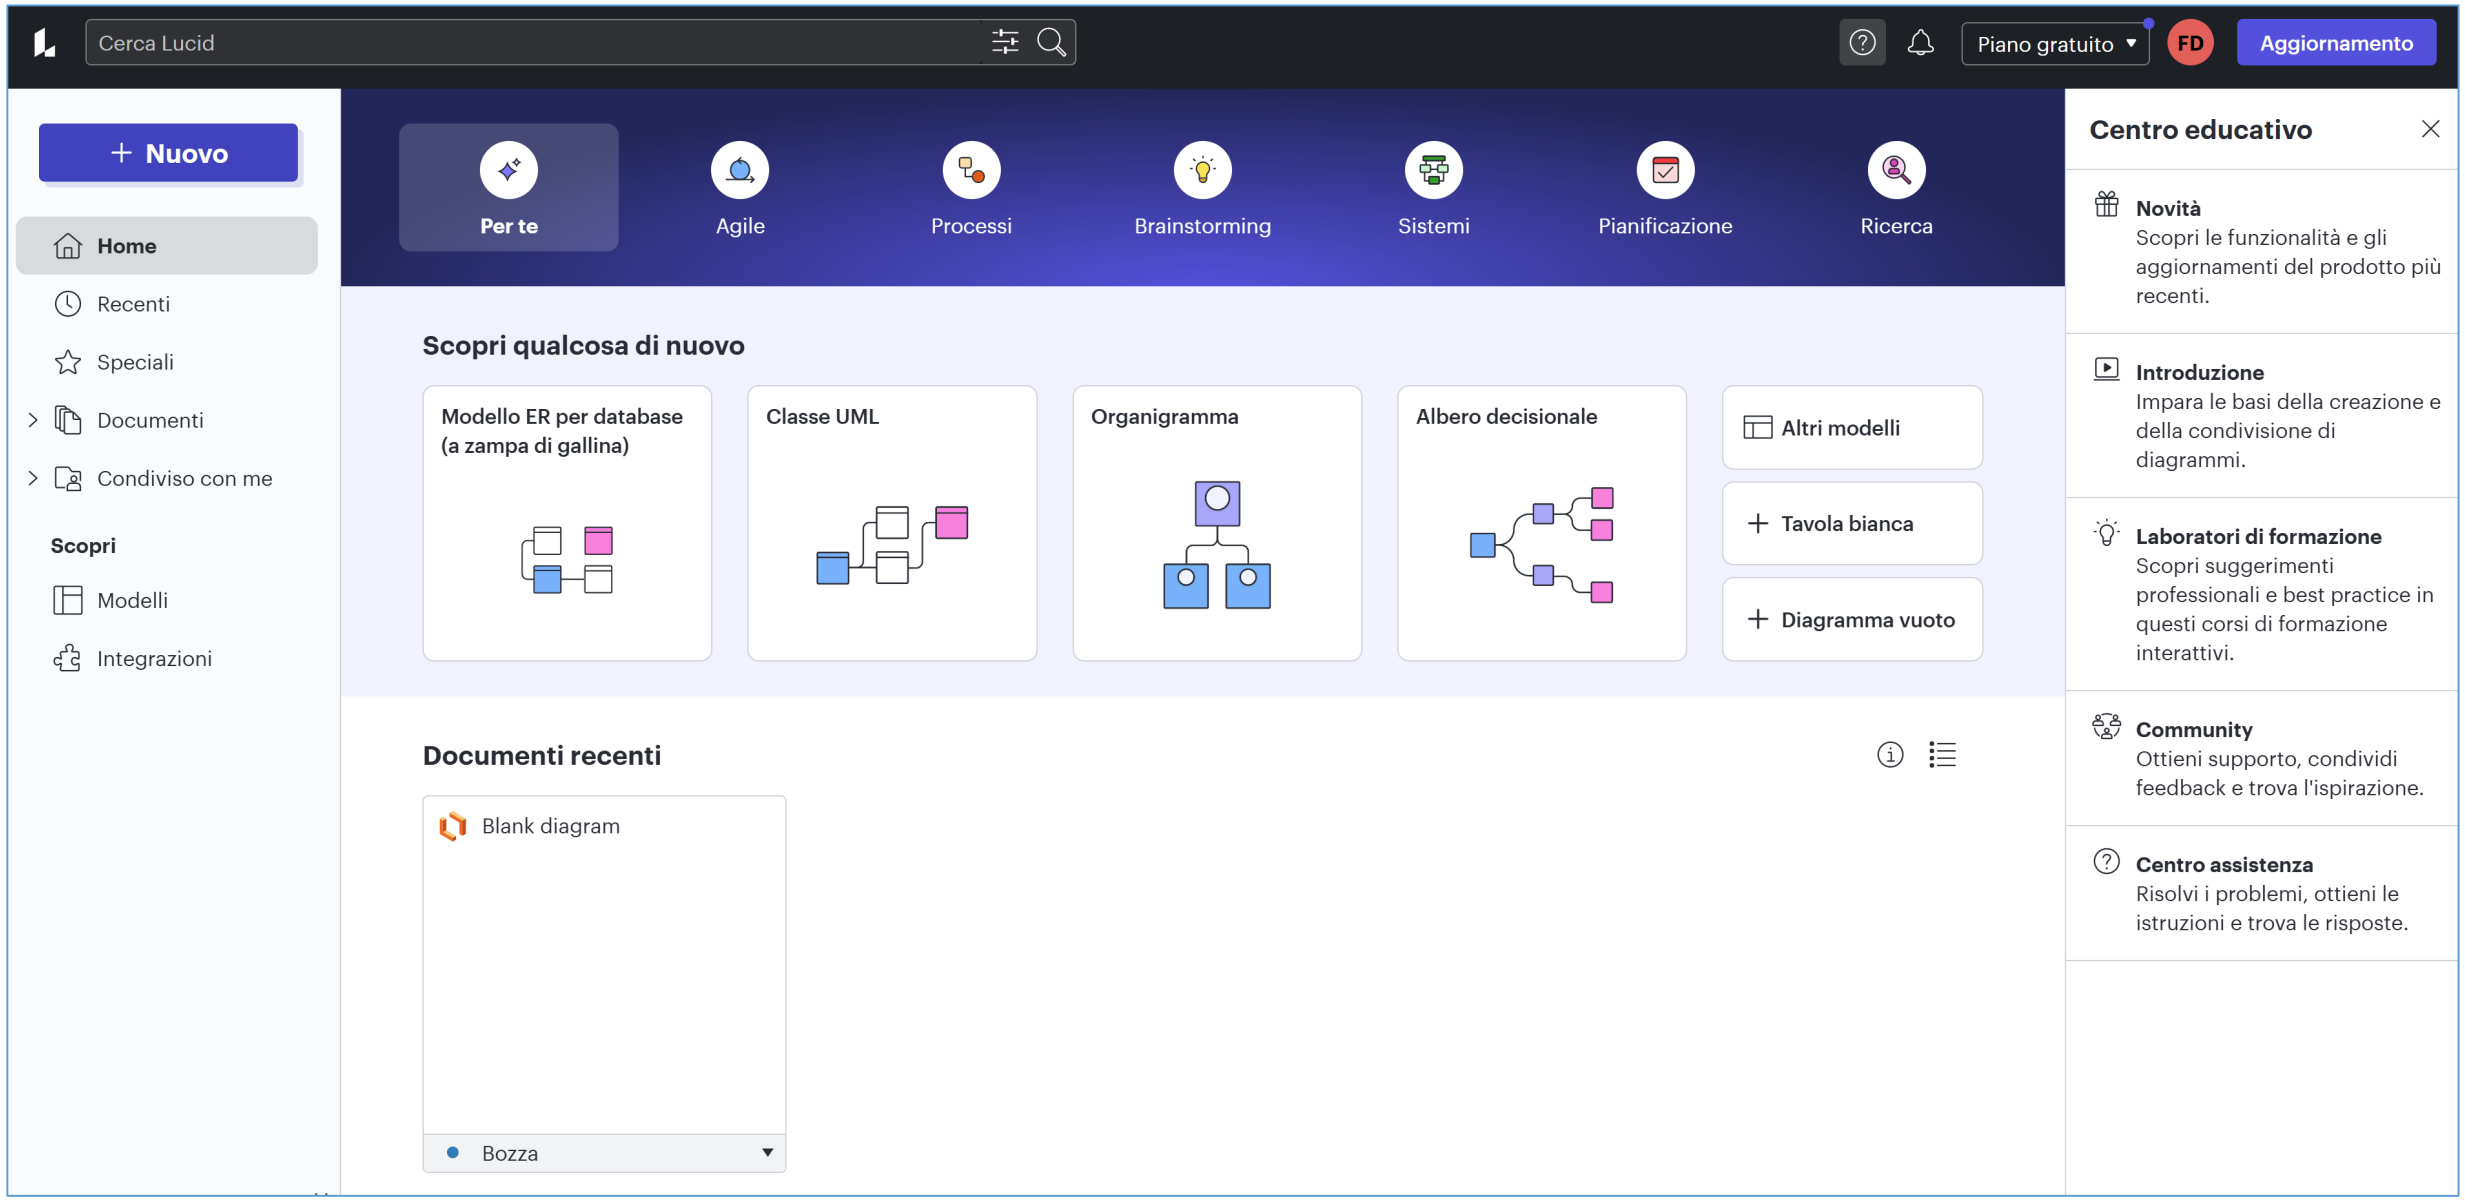

Negli user setting sarà possibile cambiare la lingua

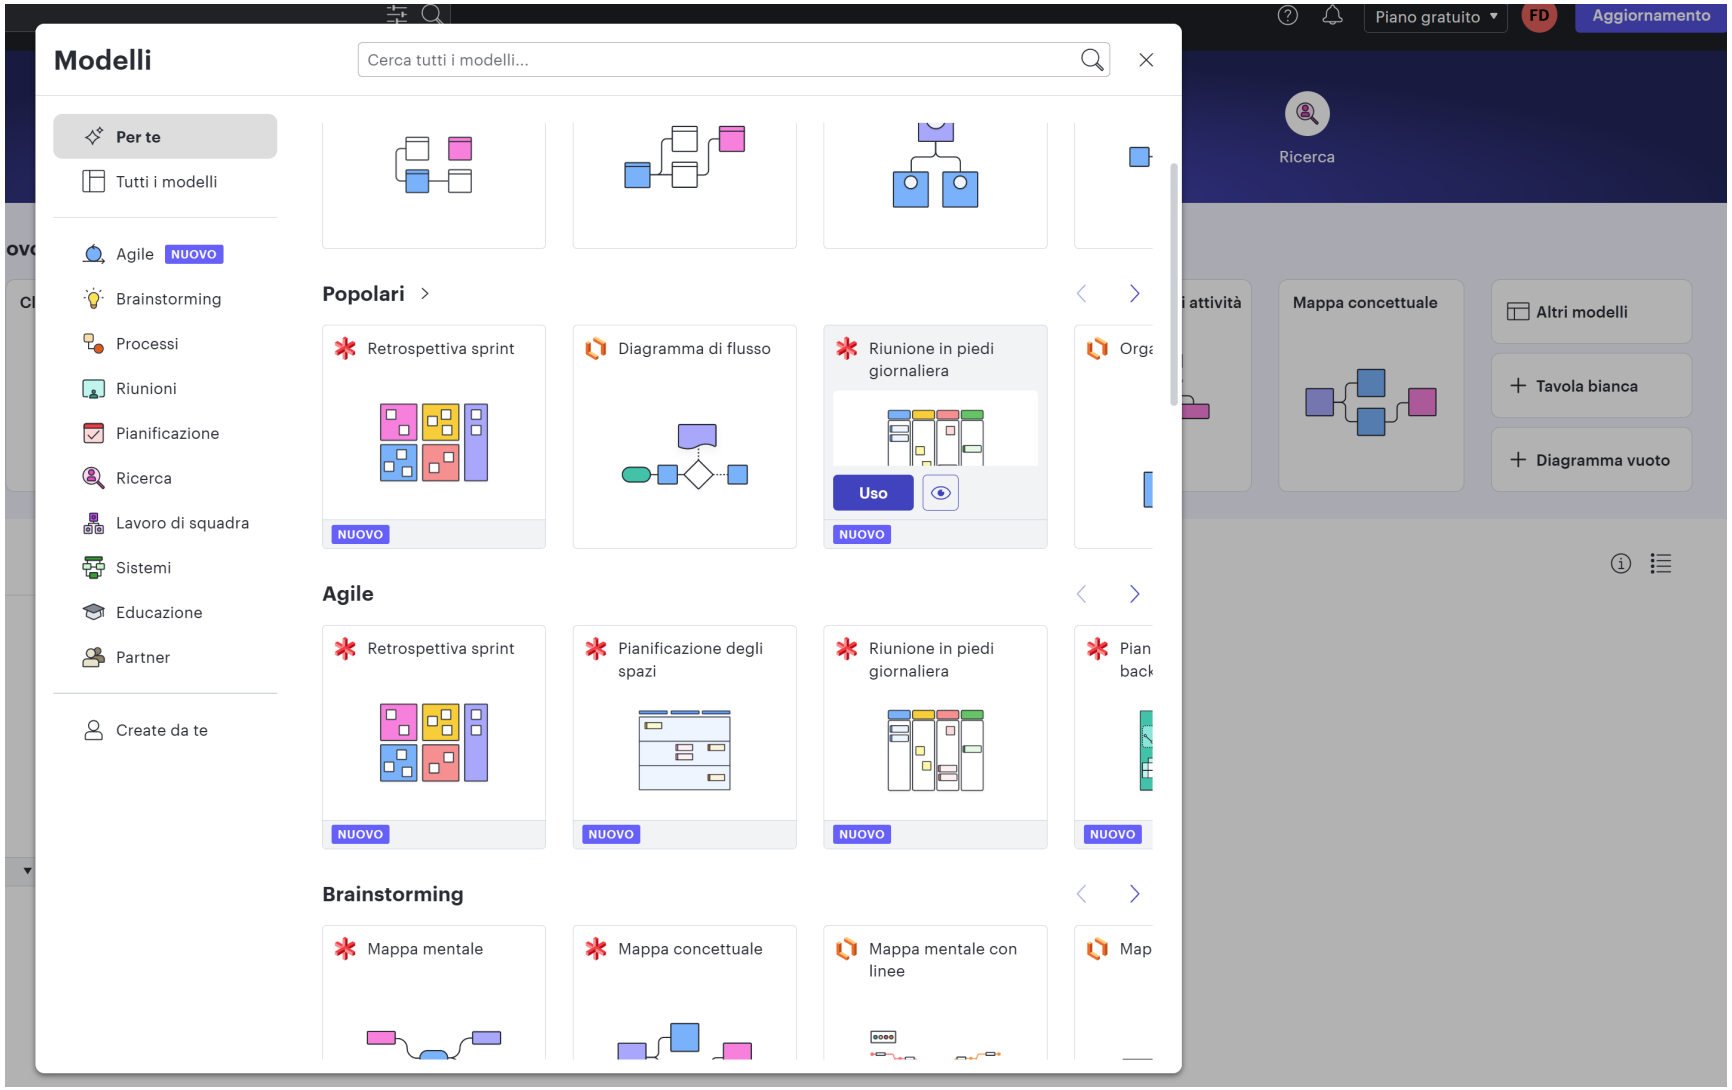

Lucidchart

Nella homepage abbiamo gli strumenti per iniziare a creare le mappe

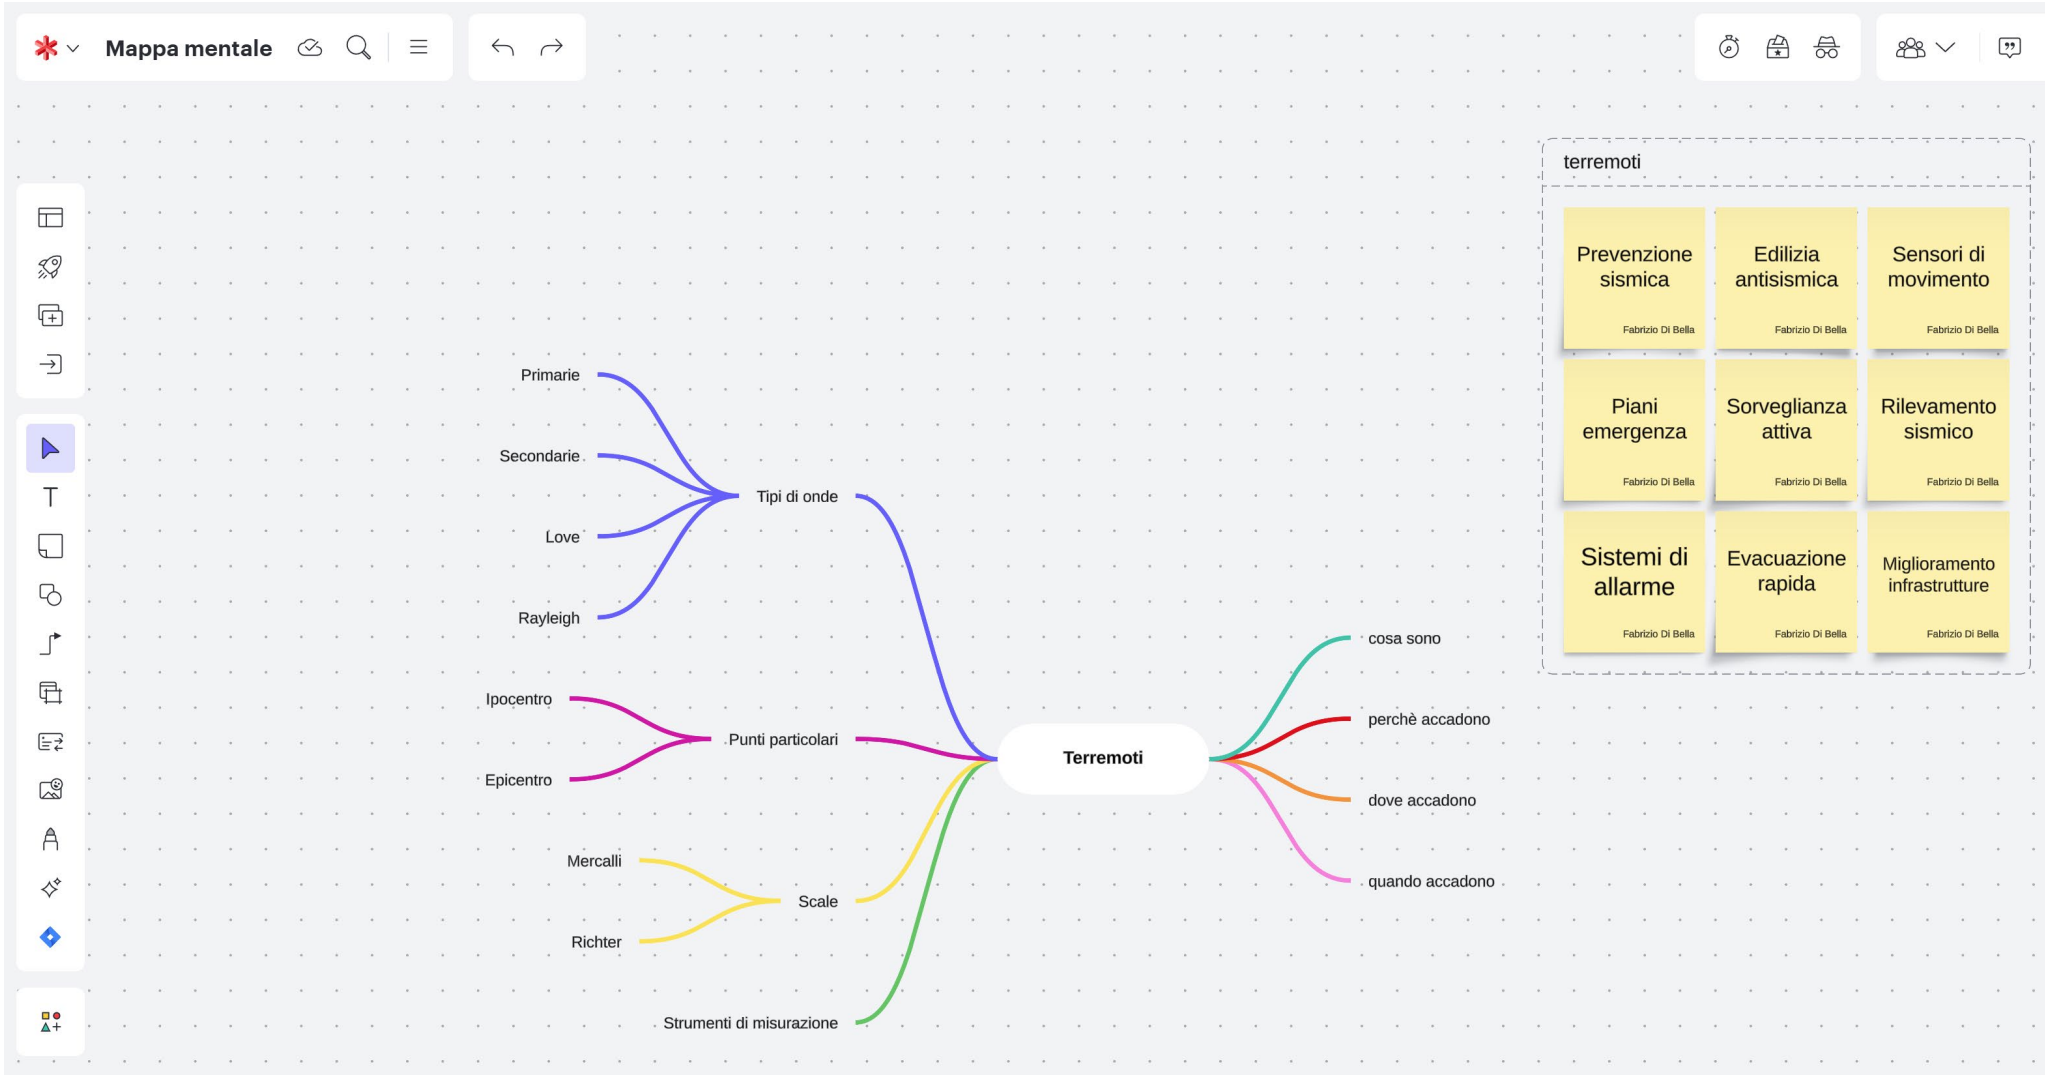

Lucidchart

Si può scegliere tra svariati modelli preimpostati divisi per tipologie oppure crearne uno da zero

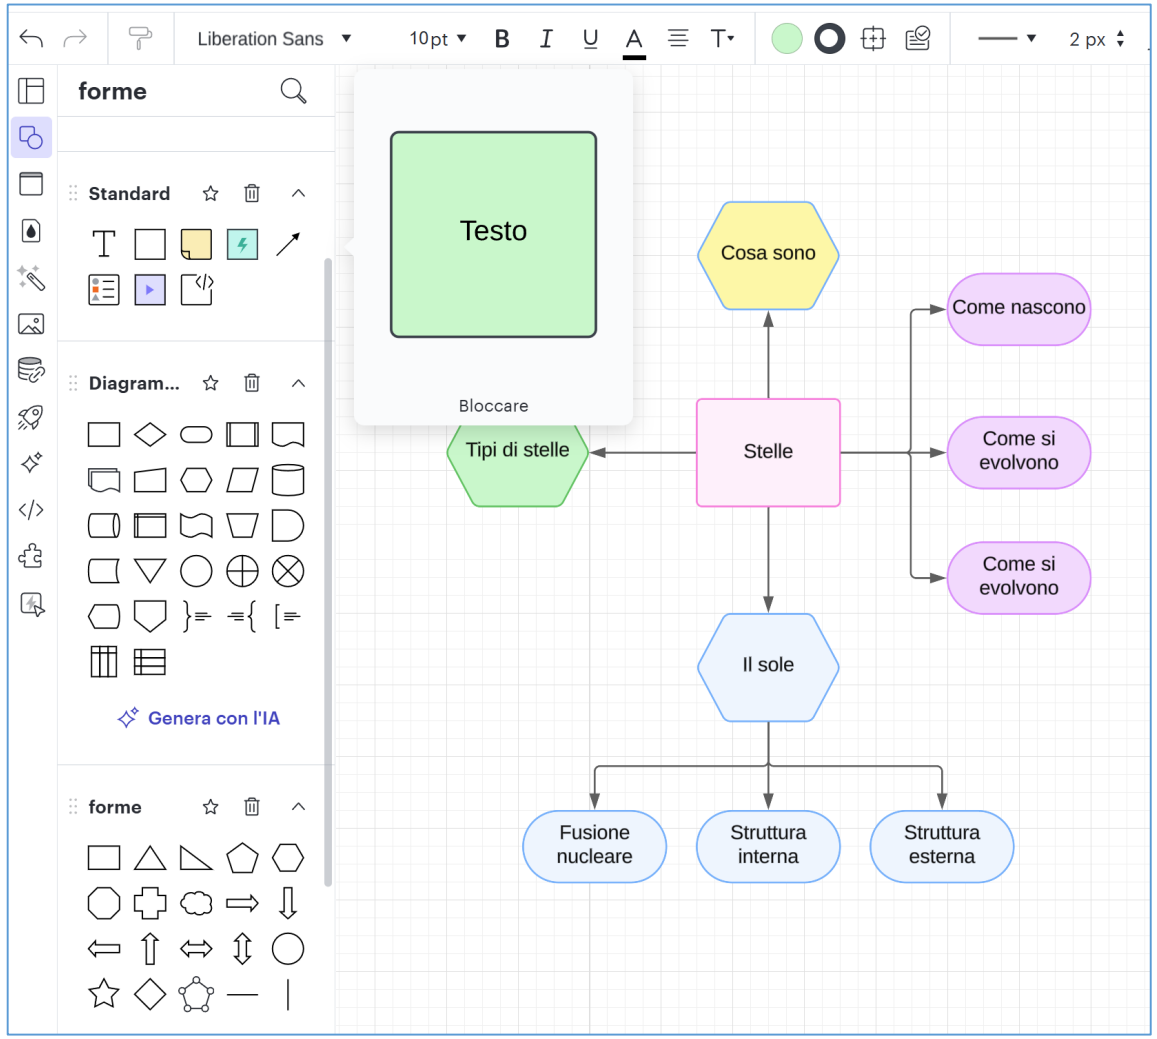

Lucidchart

Si può scegliere tra svariati modelli preimpostati divisi per tipologie oppure crearne uno da zero

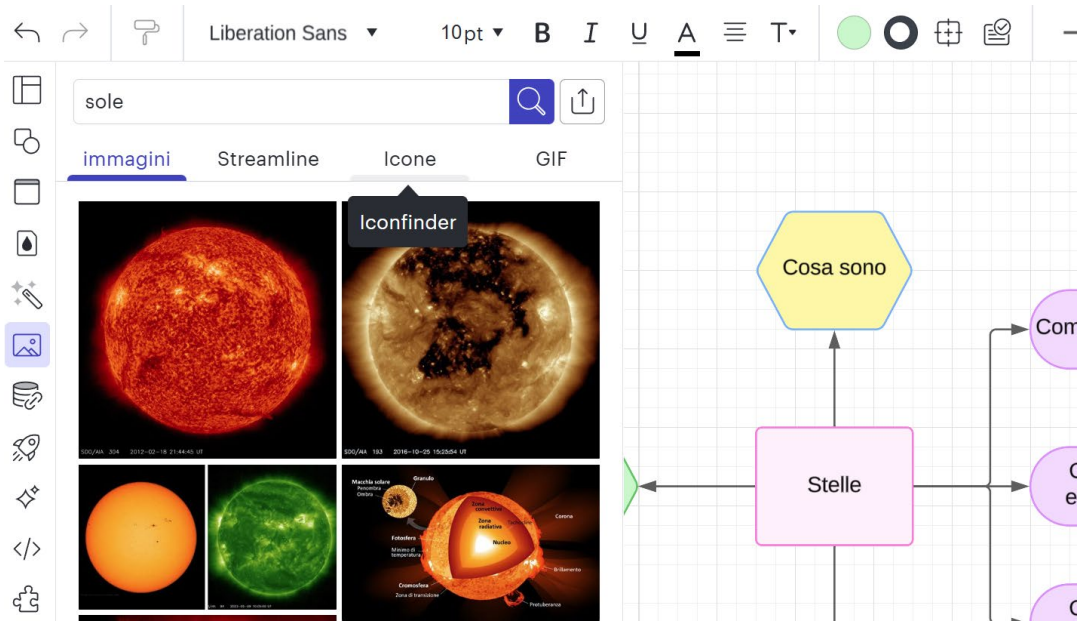

Lucidchart

Gli strumenti di creazione sono molto semplici da utilizzare.

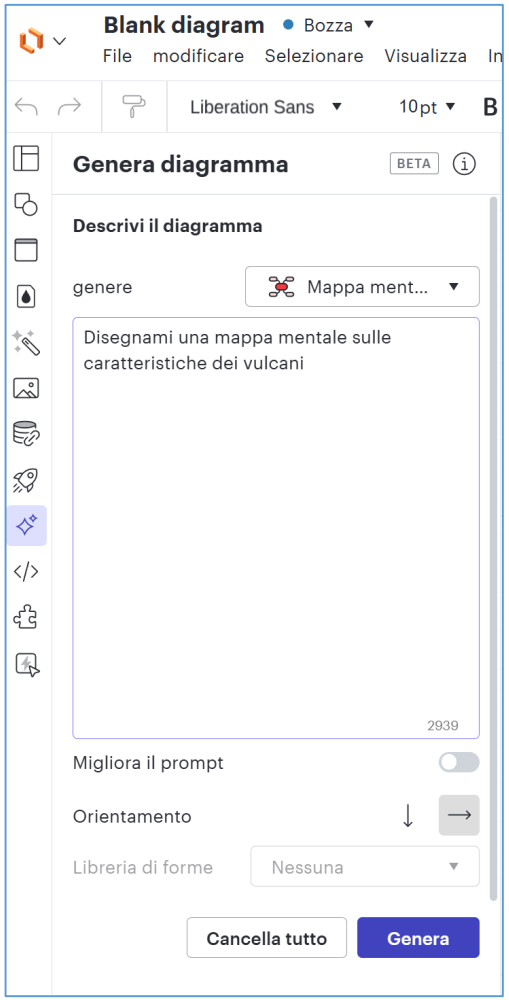

Si possono personalizzare, forme, colori, connettori, …

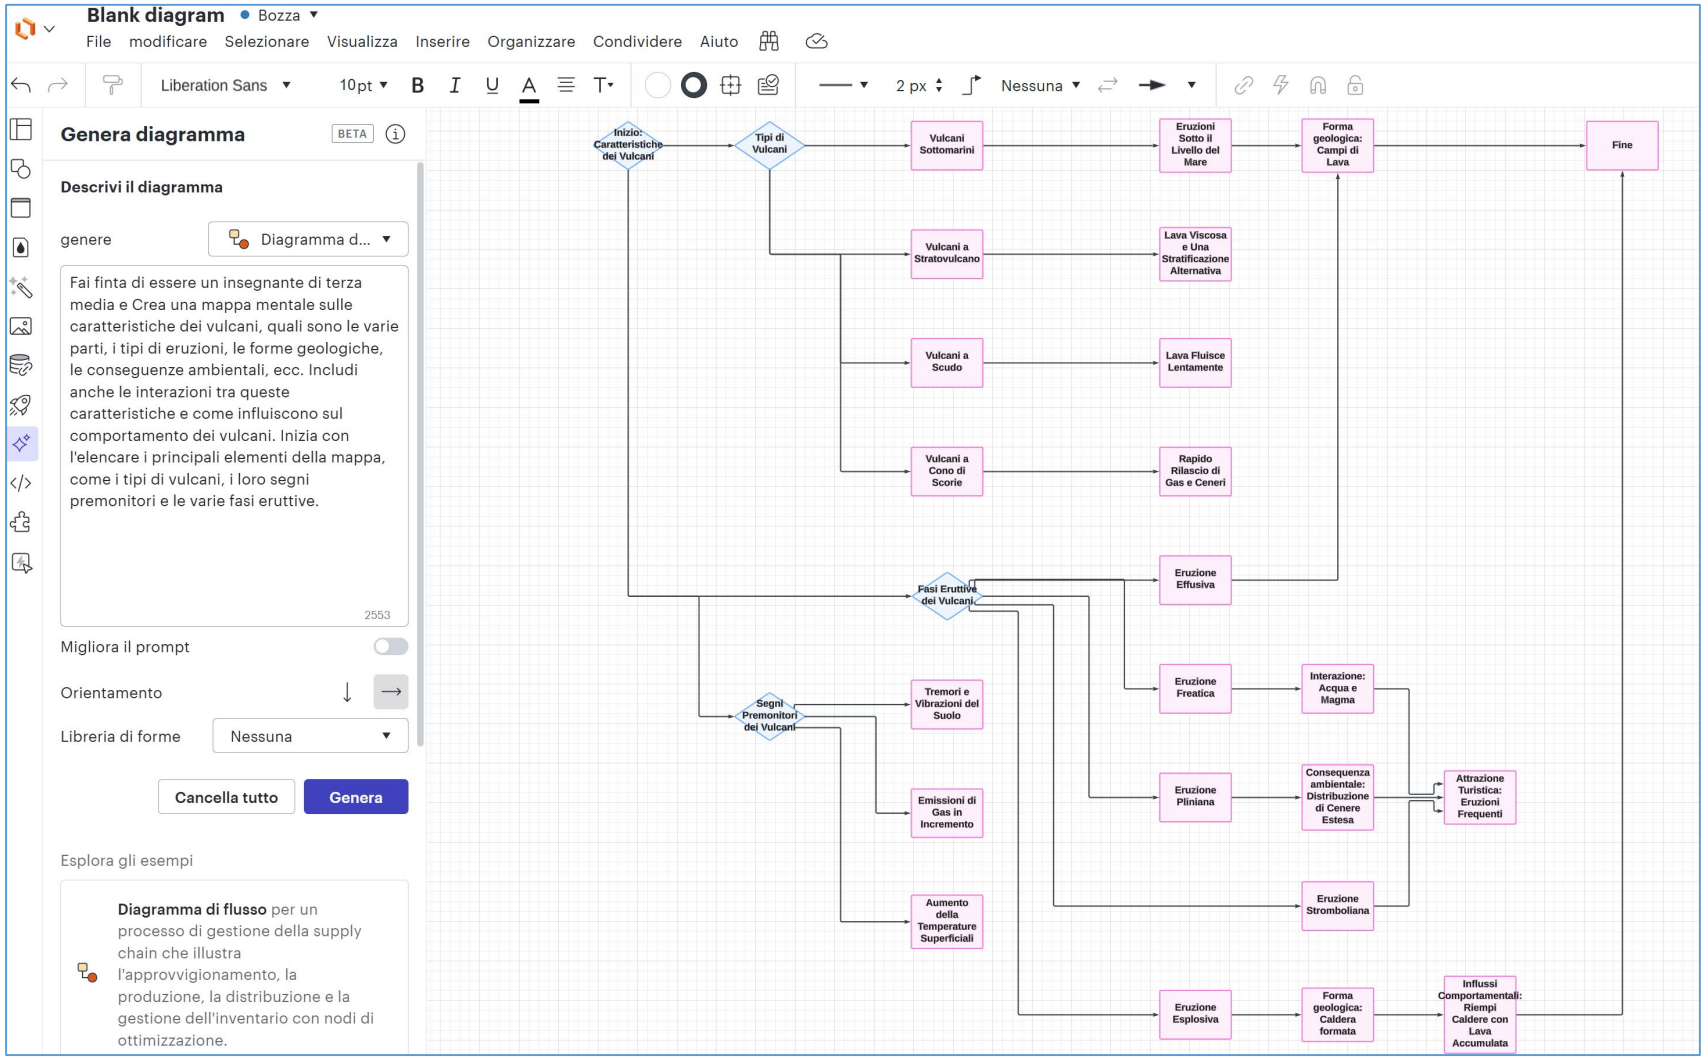

Si possono inserire immagini, GIF animate e icone ricercabili tramite l'apposito motore di ricerca

Lucidchart

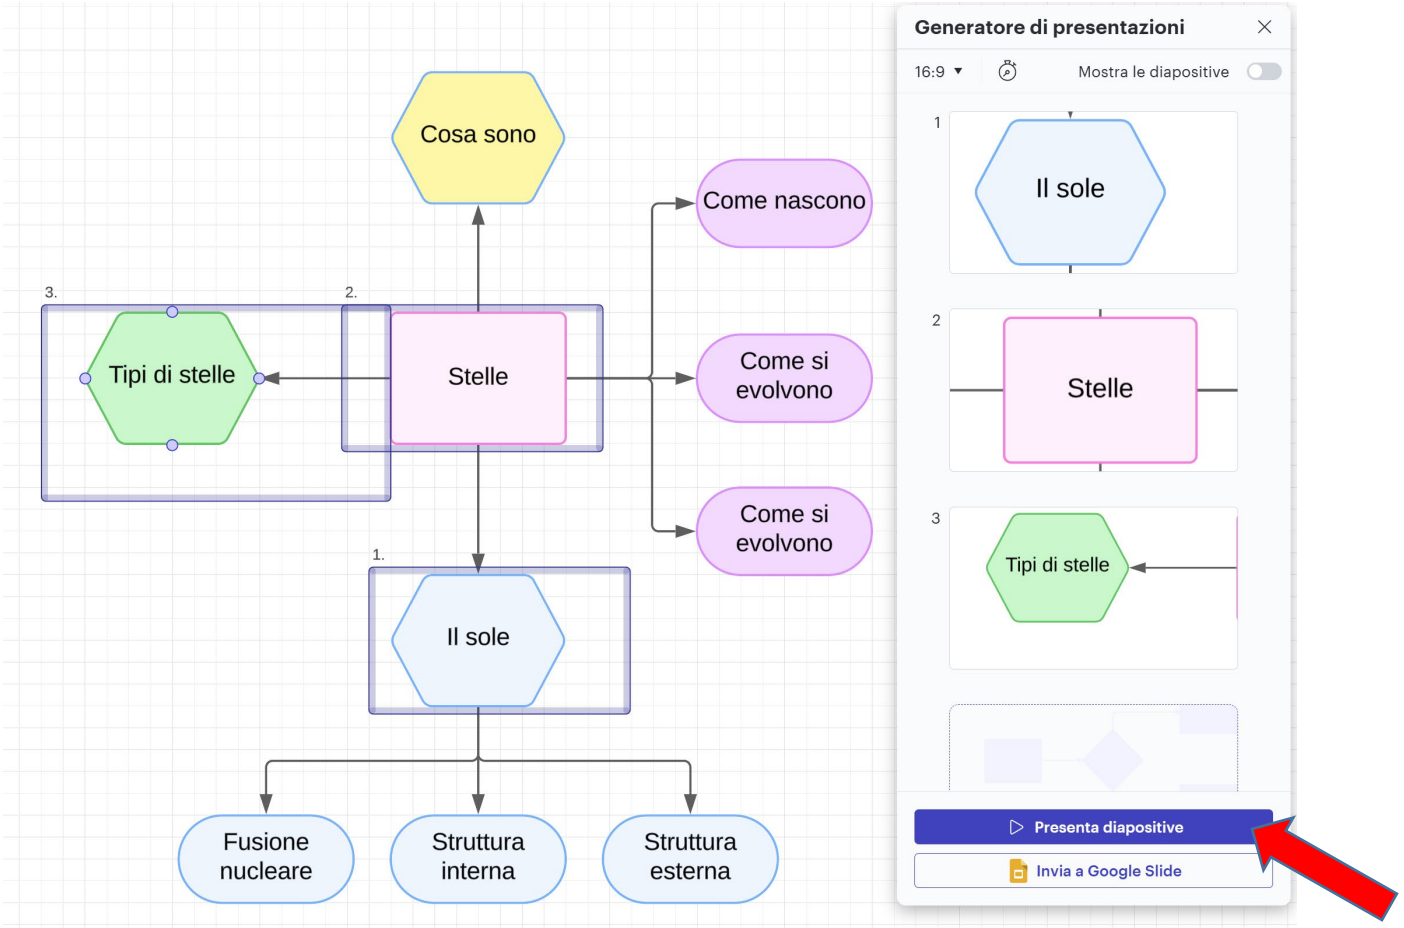

Grazie all’intelligenza artificiale, in Lucidchart, scrivendo un prompt si può generare automaticamente un diagramma

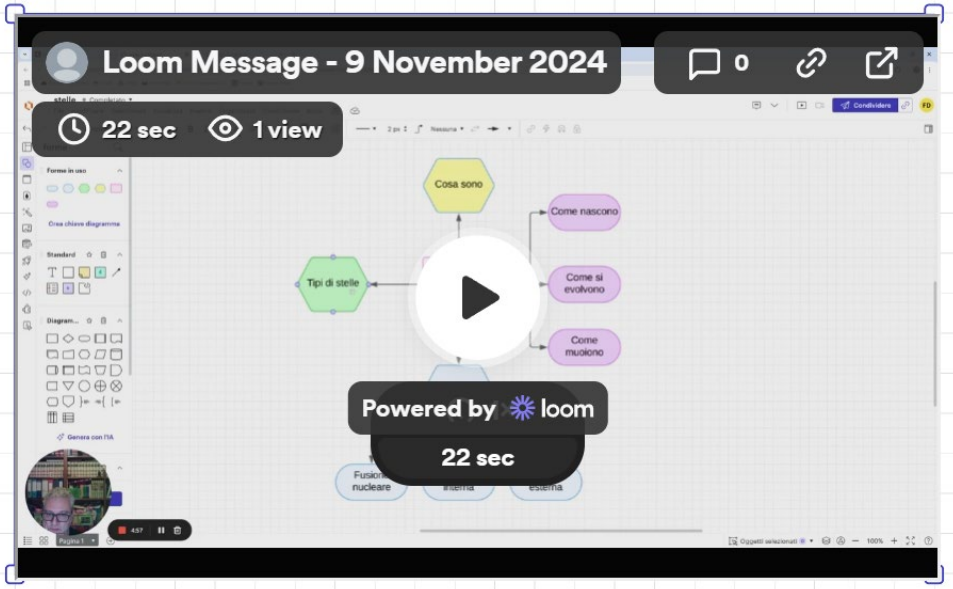

Lucidchart

È presente una funzionalità che permette di trasformare il diagramma in una sorta di presentazione dinamica.

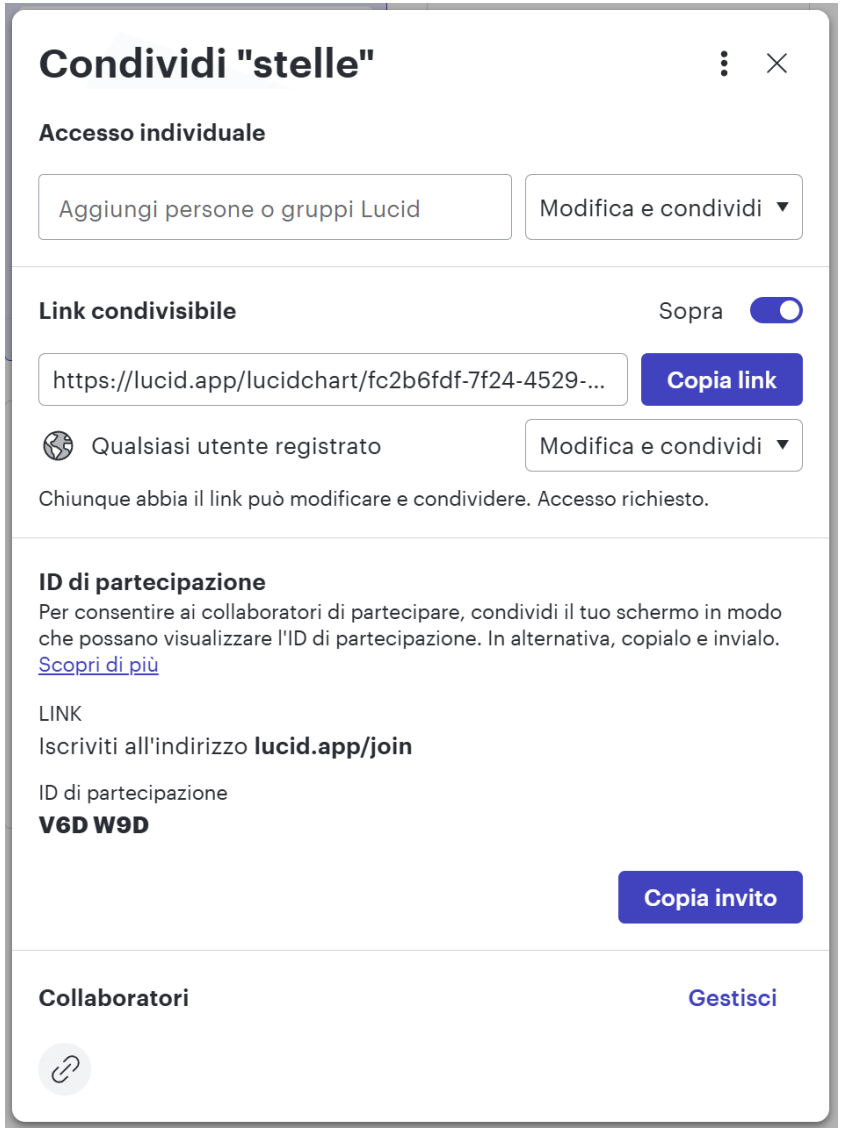

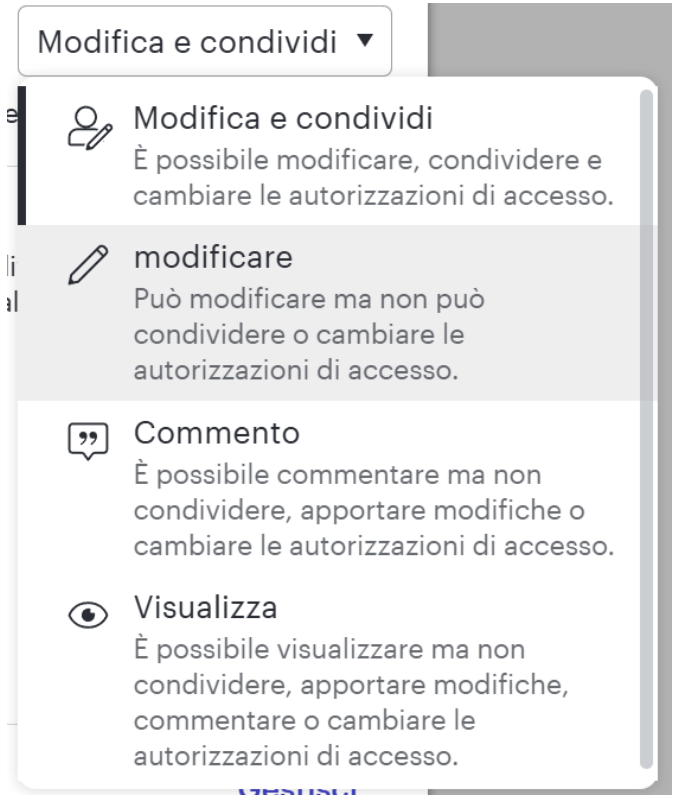

Si può anche registrare un video del lavoro di max 5 minuti

Lucidchart

I documenti possono essere condivisi tramite link o ID di partecipazione, garantendo vari livelli di accesso

Con i collaboratori sarà possibile condividere informazioni anche tramite chat

Lucidchart

I lavori generati potranno essere esportati in diversi formati e stampati
